Full-stack developer specializing in MERN stack, skilled in building scalable, user-friendly web applications. Passionate about solving real-world problems and continuously enhancing technical expertise through innovative development.

EDUCATION

Sanjeev Agrawal Global Educational (SAGE) University, Bhopal
Bachelor of Technology (Full Stack Development)

(Expected 2027)

N.H College, Bramhapuri
Higher Secondary [XII]

(2022-2023)

SKILLS

Technical Skills:

- Languages: HTML, CSS, React, JavaScript, Node.js, Express.js
- Databases: MongoDB,
- Tools & Platforms: VS Code, Mongo Server

Soft Skills:

- Teamwork
- Communication
- Time Management

INTERNSHIP

Employee Management System – Syntecxhub

March 2026

- Developed a full-stack Employee Management System using React.js, Node.js, Express.js, and MongoDB (MERN stack)
- Performed CRUD operations for employee and task data management using MongoDB.
- [GitHub \(Source code\)](#)

Food Ordering Website – The Entrepreneurship Network

April 2026

- Worked as a Frontend Developer to build a responsive Food Ordering Website using React.js and Tailwind CSS.
- Built reusable components using React Hooks and functional components for better performance and scalability.
- [GitHub \(Source code\)](#) , [Live Project](#)

Hoorain For Jaipur – Graphura

March 2026

- Demonstrated team management and coordination skills by distributing tasks, tracking progress, communicating updates, and supporting team members throughout the development lifecycle.
- Collaborated effectively with team members to implement features, resolve technical issues, conduct testing, and ensure timely completion of project requirements.
- [GitHub \(Source Code\)](#)

PROJECTS

Portfolio

(2025)

- A stunning, automotive luxury-inspired portfolio website built with React and Framer Motion. This portfolio showcases a distinctive BMW M4-themed design with high-performance animations, parallax effects, and an immersive user experience inspired by luxury automotive engineering.
- [GitHub \(Source code\)](#)

PhotoBooth

(2025)

- Developed a web-based photobooth application using React.js to capture real-time images via the system webcam
- Implemented clean UI/UX with mobile-first design principles and smooth navigation.
- [GitHub \(Source code\)](#)
